

## Integrated Management Policy

Structural Fabrications Limited (SF), policy is to strive for continual improvement in respect of their products, services, performance and systems with the aim of exceeding customer's quality expectations whilst remaining flexible & responsive to their changing needs.

It is mandatory that all SF staff adhere to the procedures in order to achieve a consistent approach to our Quality Assurance, Environmental Impact and Awareness & Safety Culture.

SF aim to ensure that every care will be taken to ensure that our Environmental and Safety commitment will be foremost in our continual improvement within our quality systems & practice.

SF will carry out all its business in a manner as to reduce or eliminate adverse effects on the environment with respect to the following industries and the legal and industry requirements therein,

Water & Sewage      Network Rail      Telecommunications      Construction  
Structural Steelwork      Refurbishment      Utilities Installation & Maintenance

In order to achieve this, the company will,

- Use all good environmental practices in its day-to-day operations
- Minimise environmental impact through selection of low hazard materials & materials from sustainable sources
- Maintain high standards of cleanliness in respect of litter and waste packaging
- Ensure cleaning agents used are of biodegradable nature
- Ensure all chemicals used are controlled to ensure they do not present a hazard to the environment.
- Limit to a minimum and strive to eliminate emissions to the atmosphere e.g. dusts and carbon dioxide
- Limit to a minimum the use of electricity, water and gas supplies and to eliminate any wastage
- Consider environmental impacts of new equipment or new work undertaken
- Ensure that any nuisance noise is controlled and reduced.
- Respect all clients policies aimed at a better environment
- Endeavour for continual improvement thus reducing the impact of our activities on the environment

To achieve this policy, the company operates a Quality Management System based upon ISO 9001:2008, and an Environmental Management System based on BS EN ISO 14001:2004.

The management systems embrace all of the Structural Fabrications activities in pursuit of excellence in quality engineering fabrication and customer service, whilst working with our commitment to the Environmental aspect of our work and ensuring the safety of all personnel is foremost in offering this service.

Furthermore Structural Fabrications will set and review our Management Objectives on an annual basis.
